

■ Multi-Pull family of electronic products

simplify the organisation and the management of all type of competitions. Scoreboards on the ranges and monitors in the halls will show, shot by shot, the competition in progress with no need for dedicated operators. Messages for the public or for shooters, news, commercial advertisements can be displayed on monitors and alphanumeric scoreboards. Formatted battery score can be automatically printed on each range for athletes' signature. Ranking list can automatically be calculated and shown in real time.

■ Multi-Pull system configuration

Single Range Composition:

Control Unit	EP095 series control unit that, connected with the shooting stand microphones, directly activate the trap machines.
Microphones and Tripods	five (for trap) or eight (for skeet) EP096AF-40 high sensitivity microphones, that comes provided with EP096AT tripods with waterproof plug and socket.
Coin Box	EP096AG coin box is meant to be directly connected to EP095S control unit in order to allow shooting stand operation even with no attending personnel. The coin box can use metallic coins or chip card
Junction Box	EP096I1 cables interface box that allows shooting range installation as well as their maintenance easy and fast to perform
Scoreboards	digital scoreboard of EP096T series (small and medium size) allows shooters and spectators to follow in real time the competition in progress

Control Room Composition:

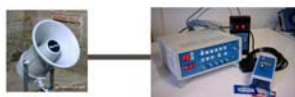

Data Concentrator	EP096GM data concentrator that collect the information from the EP095S control units on the ranges, store and organises them and forward them to the monitors in the Club House and to the large size digital scoreboards. Exchange all data with the PC
PC	The Multi-Pull software enables the operator to enter shooters' data and information on the competition, it requires a PC with Windows 98/2000/XP
Management Software	"GestGare" Management software, supplied from Elettronica Progetti, allows to manage competition compliance all ISSF requirements

Central Hall Composition:

Monitors for Results	EP096M colour monitor show the shooters' names and results with HITs MISSes and final scores, squad number, squad progressive number and discipline
Monitors for Classification	EP096M colour monitor show the real time ranking lists, as they are calculated by the software on the PC
