<b>4. GUARANTEE AND ASSISTANCE</b>	<b>-----2</b>

## 1. GENERAL INFORMATION

The "PULLT-M" control unit allows a shooting range to operate Compak Sporting manually, with the control unit EP095M.

This unit must be connected to J5 plug, removing the referee box if connected.

On the panel of the unit there are 8 buttons, from 1 to 8, and the Start button.

On the EP095M control unit it's possible, entering inside "Program Mode" select how many traps are used for the Compak Sporting (from 1 to 8).

## 2. COMPOSITION

The unit "PULLT-M" consists of the following elements:

- remote control box, with 10 mt. cable

## 3. OPERATION

Select on the EP095M the discipline named: "Manual Sporting", then select shooters (from 1 to 6).

Then press START button, from the EP095M control unit or from the PULLT-M unit.

Immediately the round will start and by pressing a button from 1 to 8 of the PullT-M a correspondent target from a trap machine will be released.

The targets are immediate, as soon as a button is pressed.

By pressing START, the "Delay Condition" will be enabled. That means a target will be released after 3 sec from pressing a button from 1 to 8.

To remove the "Delay Condition", press again START button.

If a double is requested, press at same time two buttons on PULLT-M

If less than 8 traps are used, (for example only 6 traps are used), by pressing the buttons of trap not used (for example 7 or 8), no target will be release and also the EP095M will not count targets.

## 4. GUARANTEE AND ASSISTANCE

Elettronica Progetti products are guaranteed to the original purchaser for two years from the date of purchase as shown on a valid receipt issued by the seller.

This guarantee does not affect the consumer's rights under European Directive 99/44/CE regarding certain aspects of the sale and guarantee of consumer goods; consumers should address claims under these provisions to the retailer where they purchased the goods.

This guarantee is effective in countries where European Directive 99/44/CE has been implemented. Local guarantee legislation applies in other countries.

During the guarantee period, Elettronica Progetti will repair products with defects in workmanship or materials at no charge to the customer for either labour or materials.

Travel expenses are at charge of customer.

To have work performed under guarantee, consumers must contact an Authorized Elettronica Progetti Technical Assistance Centre, or the Elettronica Progetti company at the following address:

Elettronica Progetti  
Traspontina, 25  
00040 Ariccia (RM) – Italy  
Tel.: +39 06 9342181  
Fax: +39 06 9344987  
Email: [info@elettronicaprogetti.com](mailto:info@elettronicaprogetti.com)

Before to send the unit to repair, operate like described:

1. Specify the type of failure
2. Specify the serial number of the control unit (see the label on the bottom )
3. Wait for the autorization to send back to the factory the unit
