

COMPACT

Our new control unit offers a dedicated solution for FITASC disciplines.

New design developed to be: rain proof, compact, easy to maintain, sturdy metal construction and most importantly, with the same performances of the world wide renown EP095M.

Core features:

- 8 Traps output
- 5 Microphone inputs
- 5 Stand lamps outputs
- Integrated referee box with complimentary external horn
- Full compatibility with all our scoring system
- Dedicated connection box with both 12 volt and relay dry contact output
- Integrated chipcard reader with new designed antistatic and vandal protection

Available in four different packages
